

This letter is in response to the Commission's request, dated October 12, 2007, in regards to the Committee's 2007 August Monthly Report.

1. The contributions on Schedule A from organizations not registered with the Commission were verified have been made from funds comprised of contributions from permissible sources.
2. The event year-to-date totals on Schedule H4 for the administrative and voter drive totals appear to be correct. The problem seems to be in previous reports, which will promptly be amended by the Committee.
